CV3550

Coverstitch Machine

The essential tools for a professional finish and awe-inspiring creations

- 2, 3, 4 and 5 threads
- 155mm working space
- Automatic release of thread tension
- Adjustable presser foot pressure
- Free arm machine

Sophistication made simple

The sophisticated Brother CV3550 Coverstitch Machine offers coverhem functionality for a high-quality, sophisticated finish. Easy handling and user-friendly threading systems make hemming and topstitching fabrics and garments a breeze.

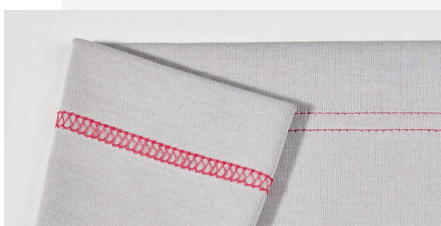

Stitch Selection

*Enjoy endless
artistic possibilities
to create a masterpiece!*

Triple cover stitch

Three-needle, four-thread reinforced cover stitch. Perfect for hemming, decorative effects, elastic and durable seams for sportswear.

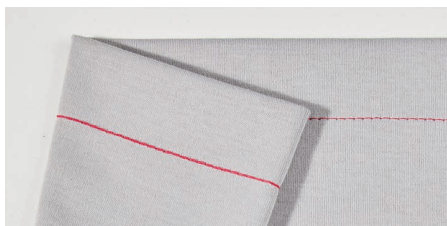

Wide cover stitch

Two-needle, three-thread cover stitch. Ideal for hemming, topstitching and decorative effects on T-shirts and knits.

Narrow cover stitch

Two-needle, three-thread cover stitch. Optimal for hemming on fine fabrics, tape binding and topstitching.

Chain stitch

One-needle, two-thread double chain stitch. Excellent for sewing rolled hems, tape binding, joining woven fabrics and decorative effects.

Triple top cover stitch

Three-needle, five-thread top cover stitch. Perfect for hems, top stitching, flat joining seams and edging with elastic and bindings.

Top cover stitch (Wide)

Two-needle, four-thread top cover stitch. It is perfect for hems, top stitching, flat joining seams and edging with elastic and bindings.

Top cover stitch (Narrow)

Two-needle, four-thread top cover stitch. It is perfect for hems, top stitching, flat joining seams and edging with elastic and bindings.

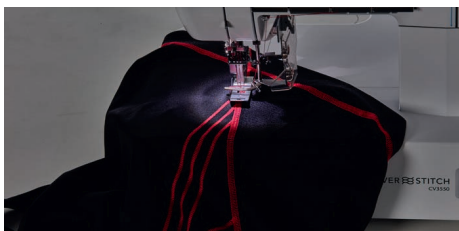

Features

Pressure control

Adjustable dial assures consistent fabric delivery.

LED work light

Brightly lit, energy saving LED lamp near needle.

Easy transportable machines

Lightweight, compact machines with carry handle.

Large working space

Comfortably work on projects with ample free space surrounding the needle.

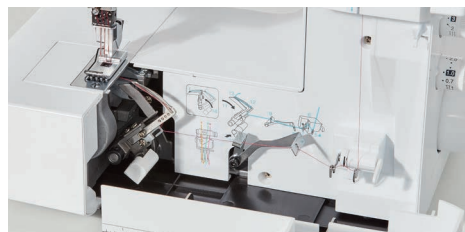

Easy access controls

Easy access to presser foot lever, stitch length adjustment dial, differential feed radio adjustment dial and handwheel.

Free arm

Easily manoeuvre fabrics to create curved-shaped pieces and small items.

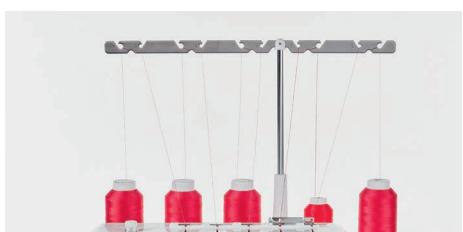

Lower looper threading

Super easy lower looper threading with simple to follow thread guide.

Differential feed

Alter the speed at which your fabric is feeding through the machine.

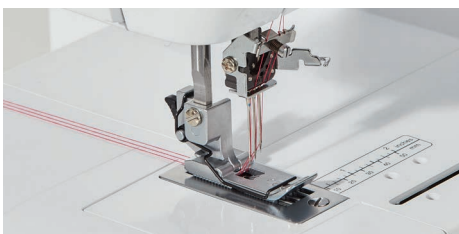

Telescopic metal thread stand

Once threaded, the stand helps straighten the threads to prevent any threads tangling.

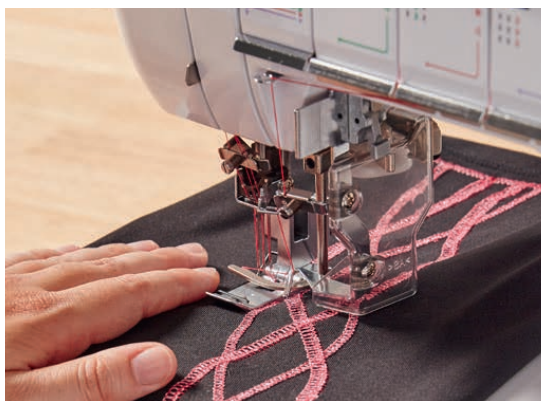

Release of thread tension

Lift the presser foot to automatically release the thread tension and remove your garment from the machine without sticking or tugging.

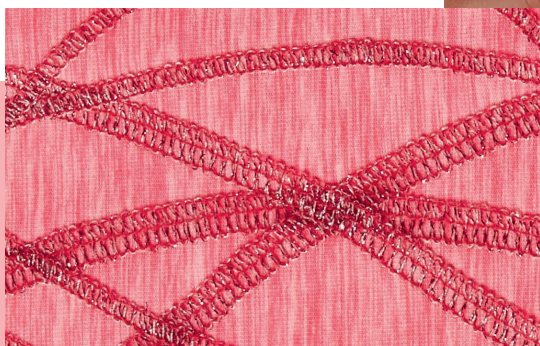

Vertical needle

Provides extra strength and power for thicker fabrics.

*Design the life
that you love!*

Discover the next level of creativity

Whether creating durable strapping for athletic garments or utilising a chain stitch for hems, Brother coverstitch machines ensure a professional finish. Expand your design portfolio with a wide range of cover stitches on all types and weights of fabric for both decorative and functional applications.
